NORDIC *EVOLution*

Nordic Evolution

Nordic Sport has developed a new pole, which is manufactured of a unique and secret mixture of material. The mixture is completely different from all other poles on the market.

The EVOLution pole have been tested thoroughly with help of both national and international elite vaulters with very impressive result.

Tests show:

- Lighter than a fiberglass pole
- Smaller in diameter than a fibreglass pole
- Bends easy at the beginning of the vault
- Gives a powerful kick-back at final stage of the vault
- None of the test poles did break during months of testing

The pole will be available from 4,0 meters 130lbs and up.
